

Wafa AMJAD

Computer Science Student | Full Stack Developer

Abbottabad, KPK, Pakistan | +92 320 5635454 | wafaamjd058@gmail.com

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on full-stack development experience across two internships, building React.js, Node.js, and MongoDB-based applications end to end — from responsive UI and REST APIs to authentication and database design. Fast learner, strong debugger, and committed to clean, maintainable code.

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, C#, SQL, Dart, Verilog (basic)

Web & Mobile Development: HTML, CSS, React.js, Node.js, Express.js, Bootstrap, Flutter

Databases: MongoDB, MySQL, PostgreSQL, Firebase, SQL Server Studio

Other: Data Structures & Algorithms, OOP, REST APIs, JWT Authentication, Git/GitHub, Cryptography (basic)

WORK EXPERIENCE

Full Stack Developer Intern — M Tech Production & Marketing (Remote)

Jan 2026 – Feb 2026

- Completed a structured 6-week full-stack internship (scored 90%, Grade A) covering frontend, backend, database, and system-design tasks under weekly professional supervision.
- Built Campus Ride Sharing Platform (MERN stack): three-role (admin / driver / passenger) system with JWT + bcrypt authentication and real-time communication.
- Built Campus Utility Management System: role-based service request and complaint-tracking platform with secure authentication.
- Analysed performance issues in a fintech mobile app and proposed an optimization framework covering microservices, caching, and DevOps.
- Deployed a responsive personal portfolio website and authored a research report on serverless architecture in full-stack development.

App Development Intern — M-Tech Production

Jul 2025 – Aug 2025

- Built a Flashcard Quiz App (question-answer flashcards, categories, timer, and score tracking) and a Random Quote Generator using Node.js/Express integrated with a database.

PROJECTS

Commutas — Campus Transit Platform — Team project · React Native, Node.js, MongoDB, NFC/QR

- Full-stack campus transit app with live GPS bus tracking, seat availability, and a digital transit wallet.
- Built contactless fare payment via Android NFC (Host Card Emulation) with a QR fallback and a web admin dashboard.

Two-Man Rule HITL Security Interlock — Team project · Verilog, ESP32-S3, React, Flask, Cocotb

- Hardware-in-the-loop dual-custody biometric interlock enforcing a Two-Person authorization rule, using synthesizable Verilog FSMs, an ESP32-S3 + R307 fingerprint sensor, verified with Cocotb, and monitored via a React + Flask console.

Lost & Found Portal — MERN Stack

- Full-stack platform for reporting and searching lost items, with a React frontend, Node.js/Express backend, and search/filter matching.

EDUCATION

COMSATS University Islamabad, Abbottabad Campus

2023 – 2027

Bachelor of Science in Computer Science

Army Public College

2021 – 2023

FSc (Pre-Medical) and Matriculation

Languages: English — Fluent | Urdu — Native

CERTIFICATIONS & ACHIEVEMENTS

AI for Business Professionals — HP LIFE

Feb 2025

Huawei HCIA-AI Certification — Huawei

Oct 2025

Internship Completion — App Development — M-Tech Production and Marketing

Aug 2025

Internship Completion — Full Stack Development — M-Tech Production and Marketing

Feb 2026
